

HAIR EXTENSION CARE GUIDE

Brush regularly to prevent tangling or matting. Place hands on top of weft for extra support. We recommend a soft bristle brush.

Use salon quality products to maintain the longevity of your hair's integrity.

Wear hair in a protective style when sleeping. I.E. low ponytail, top knot or loose braid. NEVER sleep with wet hair.

Schedule maintenance appointment in 6-8 weeks

When applying heat, use a heat protectant and lower your hot tools to 350 degrees max.

Keep hair hydrated by using a leave in and hair oil. Add a hair mask weekly to your routine.

Extensions do not need to be washed every day. Wash 1-2x max weekly.

All conditioning products are to be used on your hair. Never apply conditioning products or hair oil on root area
